The 9th Triennial of Photography Hamburg 2026, celebrates the creative potential of *Alliance*, *Infinity*, and *Love*, while calling for responsibility towards *the Other*.

Under the artistic direction of **Mark Sealy**, the international festival is dedicated to the significance of photography in our time and reveals that the medium can do more than just observe: photography connects, challenges and highlights social issues.

The theme is explored in **eleven exhibitions** in eight of Hamburg's most important museums and art institutions. During the **Opening Days**, all eleven exhibitions will open to the public, accompanied by the launch of projects supported within **Triennial Expanded**, and an interdisciplinary programme including artist talks, guided tours, screenings and further opportunities for exchange and encounter. In front of the Deichtorhallen Hamburg, the **Festival Centre** extends this programme into a shared public space – an outdoor venue for events, as well as for gathering, relaxation, and reflection.
